Freestyle Solutions are leaders in online inventory management and its services are streamlining thousands of businesses worldwide. Advanced multichannel inventory management systems are allowing businesses to track inventory across all sales channels, anywhere, anytime. Freestyle's innovative software is allowing for better analysis of products in terms of performance and peak selling periods, which is directly translating into increased profits.

Freestyle Solutions is enabling multi warehouse suppliers to manage multiple stock profiles simultaneously and without confusion. Traders are also able to safeguard their reputations by avoiding stock outs and double selling with ease. They can customise their inventory management to establish personalised low level points so as to avoid the dreaded 'out of stock' line. Not only this, traders can also pinpoint profit margins and gauge popularity at a quick glance. No other package is as expert or customisable. Freestyle Solution's dynamic automated order fulfilment process is taking the hassle out of online purchases for retailers, allowing customers to coordinate purchases with ease. Real time status updates allow traders to always be in the know when it comes to where orders are in the processing phase. Cumbersome spread sheets are a thing of the past with Freestyle Solutions.

Innovative eCommerce platform integrations are opening up markets and allowing users to streamline the entire order process. One cloud based inventory and order management solution allows for complete control over orders and inventory. Not only this, Freestyle Solutions allows users to integrate the shipping process, reducing the risk of manual data entry errors. Once the shipment is created, finished labels including bar codes, tracking information and account information are printed with the click of a button and shipping addresses are verified against the postal database to ensure accuracy.

The Joseph Saveri Law Firm, Inc. officially opened for business in June 2012 and is already considered one of the best law firms in the country. To date, the firm has generated over \$600 million in settlements and successful resolutions for its clients.

The Joseph Saveri Law Firm prides itself on its unwavering commitment to fighting anticompetitive business practice. The firm is a prominent and growing figure in antitrust cases, class actions and complex litigation in federal and state courts throughout the United States. Its varied areas of expertise include banking and financial services, insurance, energy, pharmaceuticals, agricultural products, computer hardware, computer software, travel and transportation, paper products, cosmetics, and consumer electronics. The firm's most successful cases include the high tech employee anti poaching case against tech leaders Apple, Adobe, Google, Intel, Pixar, Intuit, Lucasfilm and others; the Cipro case pending in front of the California Supreme Court and the antitrust price fixing case against titanium dioxide manufacturers DuPont, Huntsman, Millennium Inorganic Chemicals and Kronos.

The Joseph Saveri Law Firm is a proud defender of entrepreneurs, individuals, consumers, small business owners, public officials and corporations in complex commercial disputes. The firm currently represents direct purchasers against some of the world's largest manufacturers of lithium ion rechargeable batteries. Other class action lawsuits involve the fixing of online retail reservation prices by some of the world's largest hotel companies and a federal antitrust class action against Zuffa, LLC, who stand accused of suppressing the wages of their Professional Mixed Martial Arts Fighters. With over 25 years of combined experience, its attorneys are known for their integrity, professionalism, and high degree of skill in their respective fields.
